

Spectra 1000 UV Light Disinfection System*

Integrated hard surface and air room disinfection device.

Kills 99.98%** of *C. auris* on hard surfaces

Spectra 1000 offers an additional layer of support to complement your current environmental services protocol. Facilities rely on this robust UV device to supplement routine room cleaning by simultaneously reducing various environmental pathogens on hard surfaces and in the air. Equip your team with an easy-to-use intuitive system.

Affordability

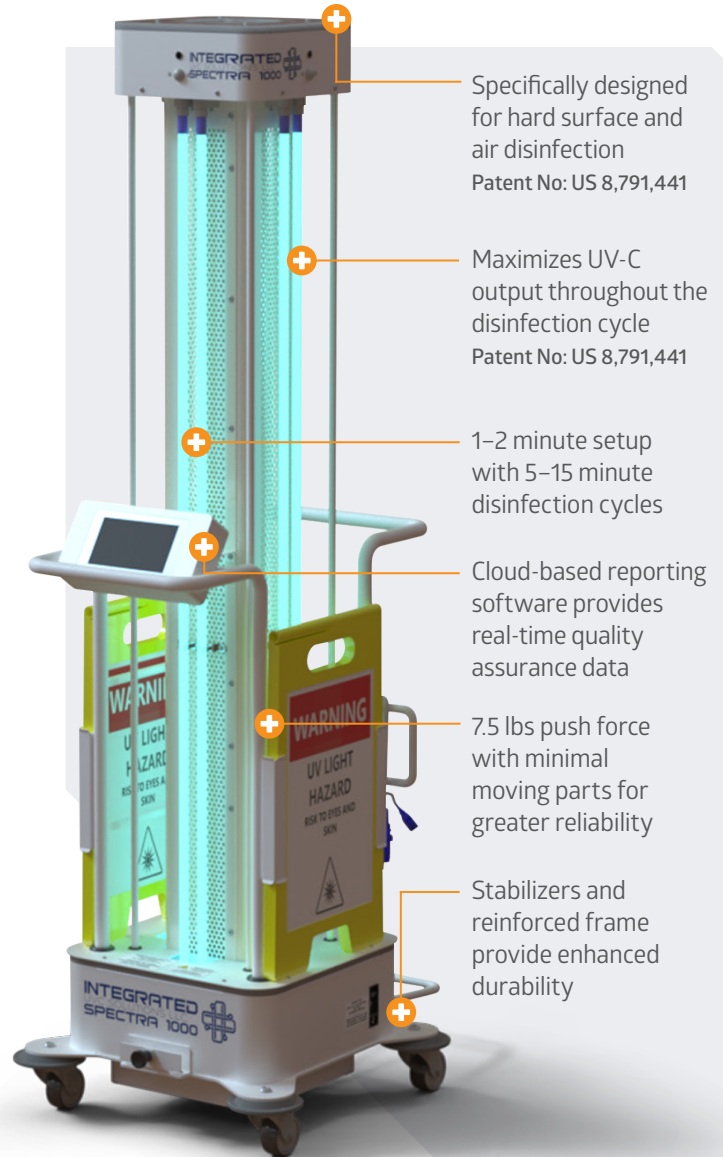

Deploy more units for less money. Choose from affordable monthly subscription with no upfront costs, or a low-cost capital option.

Surface efficacy

99.983%*** of *C. difficile* spores¹ **99.98%**** against *C. auris*² **99.999%***** against MRSA¹ **99.993%[†]** against Ebola surrogate⁴

Air efficacy

99.998%^{††} against *C. cladosporioides*⁵ **99.998%^{††}** against *E. coli*³ **99.999%^{††}** against MS2 Bacteriophage³ **99.999%^{††}** against *S. aureus*³
